Honors Tea is an annual celebration of achievement at Danforth, and this year many MaST students came away with the prizes and scholarships that are available to all Danforth students. Awards were given for achievements in every subject area and in various grades. These awards are just another tradition that Danforth has to promote student success. Sponsors from the community and Danforth's superintendent came out to help give the awards to dozens of deserving students. After the awards ceremony, guests enjoyed an amazing spread of food provided by our award-winning hospitality department.
