---

Four teams from Danforth competed at the University of Toronto's Space Design Competition. They began their work several months ago on the topic of asteroid mining and teams come from as far away as India to compete. In the junior category, the team of Keyan Sheppard, Lazim Iqteder, Marc Frame and Michael Moses won 3rd place for best report. In the senior competition, the team of Ridwan Howlader, Prasad Srikuganathan and Jonathan Demmer took 1st place overall and the team of Trevor McCourt and Lucy von Appen took 3rd place.
